Conference Objectives

With a unique business and industry focus, CareerTECH Vision 2012 will bring over 200 sessions built around real-world education issues and solutions to help Career and Technical Education (CTE) professionals meet their learning needs. At CareerTech VISION 2012, attendees can customize a learning track and adapt the schedule to achieve their individual and institutional learning goals. Idea Lab sessions provide an introductory look into a topic in a 60-minute session, helping teachers learn what they need and decide if they want to pursue further knowledge. Deep Dive sessions are two-hour sessions that will dig deeper into issues that are relevant to individuals' work as a CTE professional. Exclusive partnerships with <u>High Schools That Work</u> and <u>Model Schools</u> will offer attendees a chance to explore best practices, instructional models, and tactics for integrating rigorous academics and CTE that have been identified by these groups.
