CALL FOR PROPOSALS

The 2016 National Health Science Curriculum Conference provides an opportunity to showcase programs, share innovative teaching strategies and best practices, and look to the future by experiencing a wide array of learning opportunities and new resources. Educators from around the country will come together to form networks and build collaboration to enhance health science education programming. The conference committee invites session proposals supporting the theme, **“The Race Ahead: Breaking Barriers and Building Bridges.”** [Click here to submit proposal](#)

WHY YOU SHOULD ATTEND

- This is the only conference that focuses 100% on Health Science Education and teacher pedagogy.
- Teachers make career-lasting connections with educators throughout the Nation.
- This professional development is an approved use of Perkins Funds.
