

Career and Technical Education and Career Connected Learning throughout Washington has received significant attention and activity over the past few years. The time is right for our community to come together to explore and learn about the exciting things happening across our state in creating partnerships, advisory boards, Work-Based Learning programs, course equivalencies, and how we can collaborate to ensure more learners benefit from the work we do.

This conference is dedicated to all of those interested in creating options for ALL STUDENTS to have valuable and efficient pathways to postsecondary education for workforce readiness and participation and overall adult success.

WHAT:

**WA-ACTE Fall Summit
Strategies for Success: Connecting Education, Communities, and Careers**

The conference will kick-off with an inspiring keynote presentation and followed by deep dives into:

- Building Strong and Sustainable Business Partnerships
- Building and Managing Effective Advisory Boards/Committees
- Building a Strong Work-Based Learning Program
- Academic Alignment to Support Course Equivalency Initiatives

WHEN:

November 2-3, 2017

WHERE:

Great Wolf Lodge, Grand Mound/Centralia

WHO:

The professional development focus of the summit is for education professionals, including instructors, career guidance and school counselors, administrators, and board directors from both secondary and postsecondary programs and institutions.

Along with parents, community-based organizations, workforce development partners, including industry associations, and employers interested in creating options for ALL STUDENTS to have valuable and efficient pathways to postsecondary education for workforce readiness and participation and overall adult success.
