CTE IN THE NEWS

WA FFA Members Attend White House Science Fair

Two FFA members who solved a plant infestation problem in their high school greenhouse were honored by President Obama at a White House event for students who excel in science. Celine Patrick, 15, of Lake Tapps, WA, and Ashlee Tarro, 15, of Auburn, WA, are members of the Sumner High School FFA Chapter in Sumner, WA. Celine and Ashlee won first place in their category and division at the 2013 National FFA Agriscience Fair during the National FFA Convention & Expo that features the research and results of FFA members planning to pursue careers in the science and technology of agriculture. Their achievement earned them the special White House invitation. The 2014 White House Science Fair celebrated the accomplishments of student winners in a broad range of science, technology, engineering and math (STEM) competitions throughout the U.S. This year's event included a specific focus on girls and women who have excelled in STEM and inspired the next generation with their work. Students attending the event heard remarks from the President and interacted with other students, professional scientists and high-level senior government and private sector representatives.

A story about Celine and Ashlee along with some great photos (including one with Bill Nye the Science Guy) is available here: <http://nationalffa.wordpress.com/2014/05/27/ffa-members-honored-at-2014-white-house-science-fair>. Look for Celine and Ashlee on the front row to the left of President Obama in this clip from NBCNews.com: <http://www.msnbc.com/msnbc/watch/pres-obama-shares-is-scientific-blunders-267673155799>. The buzz from this story is an excellent illustration of how FFA pushes out hot news through our social media.
