Legislative Session Week 3 January 27, 2012

While snow may have closed schools and kept staff from reaching our office last week, the wheels of government continued to move. There has been much happening directly related to CTE and will need to have your voice heard.

With the budget crisis limiting available revenues and the McCleary court decision saying that the legislature has defined basic education in 2261 there are many bills seeking to remove previously instituted educational activities as unfunded mandates. The High School and Beyond Plan and Culminating Project have been targeted as two of those unfunded mandates in HB 2333, HB 2538, and its companion SB 6323. There are various proposals in the three bills heard in committee this week. These bills have other components addressing writing assessments, LAP, and school district audits included within them. The WA-ACTE position is in an attachment to this WOVE.

Please take the time to [contact your members](#) if they are on an [education committee](#) and let them know how important keeping the High School and Beyond Plan and the Culminating Project as a graduation requirement is for all students no matter which program they may be in or what their next steps may be.

The Career Pathways Act HB 2170/SB 6119 continues to gain support and is to be exec'd out of committee today, please [contact your members](#) in each chamber and ask for their support of this bill and why it is important for the success of our students.

Please be sure to attend the [Legislative Policy Seminar](#) on February 16 this will be a great opportunity to share the good things your programs are doing and to move the Career Pathways Act forward.

IMPORTANT: When contacting you legislators and “Asking for their support...”, which means to vote for or against something, you must use your phone or computer on your personal time.

CAREER AND TECHNICAL EDUCATION RELATED AND OTHER HIGH PRIORITY BILLS OF INTEREST

HB 2170 - Enacting the Career Pathways Act - Introduced by Representative Tim Probst - **House Labor & Workforce Development Executive Action** - Creates the Career Pathways Act to: (1) facilitate increased opportunities for work-based learning and internships for high school students and teachers, and mentorships for the business community in public schools; (2) create structures to encourage connections between businesses, schools, and institutions of higher education; (3) make career exploration a routine part of middle and high school instruction and encourage students to select career goals or majors while in middle and high school; (4) better inform parents and students of career opportunities that are tied to the needs of the local, regional, and state economy; (5) continually emphasize the dignity and economic value of skilled trades, pre-apprenticeships, apprenticeships, industry certifications, workforce training programs, one- and two-year degrees, and baccalaureate and post-baccalaureate opportunities; and (6) measurably increase completion rates at all levels of secondary and postsecondary education and measurably increase student success after completion. **Companion Bill: SB 6119**

HB 2265 - Establishing Washington Works Programs - Introduced by Representative Tim Probst - House Labor & Workforce Development Executive Action - Establishes the Washington Works program to increase high school graduation rates and provide for higher education and job opportunities for high school graduates through collaborative programs between public K-12 education, higher education, and private industry. This act provides for performance-based financial rewards for participating school districts, colleges, institutions, programs, and councils. This act directs the Office of Financial Management to direct one-fourth of any budget surplus, as determined at the beginning of each biennium, to the Washington Works account.

HB 2333 - Reducing State Requirements on Local School Districts - Introduced by Representative Kristine Lytton - Referred to House Education - Removes writing proficiency requirement from K-12 curricula. This act removes a provision that allows a score of 3 or better on a calculus or statistics AP exam to substitute for graduation requirements. This act re-establishes proficiency in writing beginning with the 2015-2016 school year. This act also authorizes the State Board of Education (Board) to adopt a requirement for completion of a culminating project. The Board may adopt a requirement for completion of a high school and beyond plan, subject to certain criteria. This act also limits the audit of school districts to one every three years, unless there is a suspicion of fraud, by request of the school district's board of directors, or required by federal authorities.

HB 2428 - Authorizing the Establishment of Charter Schools - Introduced by Representative Eric Pettigrew - Referred to House Education - Authorizes charter schools and establishes the Washington Charter School Commission as an independent state agency whose mission is to authorize high quality charter schools throughout the state, particularly schools designed to expand opportunities for educationally disadvantaged students. Also establishes the transformation zone district as a statewide school district within the state. **(Companion Bill: SB 6202)**

HB 2538 - Reducing Certain Requirements Affecting School Districts - Introduced by Representative Sharon Tomiko Santos - Referred to House Education - Changes high school graduation requirements relating to a student completing a culminating project. Changes the requirements for submission, by a participating school district, of the school district program plan. Requires the state auditor to conduct fiscal and performance audits for school districts under certain circumstances. **(Companion Bill: SB 6323)**

SB 5973 - Regarding Revised Standards and Assessments for Teacher Certification - Introduced by Senator Tracey Eide - Referred to Senate Early Learning & K-12 Education - Modifies current requirements for specific teacher certifications and evaluations to include STEM-related (Science, Technology, Engineering, and Math) components. The new standards related to mathematics must be adopted by September 1, 2013, and for science by September 1, 2014. Revised rules for certificate renewals must include the requirement that continuing education or professional growth plans for these teachers include a specific focus on the integration of science, mathematics, technology, and engineering instruction.

SB 5975 - Regarding Grant Opportunities for STEM Career Courses - Introduced by Senator Rosemary McAuliffe - Referred to Senate Early Learning & K-12 Education - Establishes a grant program for high schools to implement a training program to prepare students for employment as entry-level aerospace assemblers. The Office of Superintendent of Public Instruction (OSPI) is responsible for awarding the grants, subject to available funding. This act contains a reporting requirement for OSPI back to the legislature on the success of the program, beginning in 2018.

SB 6038 - Excluding Permanent School Building Space Used for STEM Schools From Eligibility Determinations for State School Plant Funding Assistance - Introduced by Senator Jerome Delvin - Passed Senate Early Learning & K-12 Education to Rules - Excludes space in public schools permanently dedicated for STEM schools when making eligibility determinations for school funding assistance.

SB 6119 - Creating the Career Pathways Act - Introduced by Senator Rosemary McAuliffe - Referred to Senate Early Learning & K-12 Education - Establishes the Career Pathways Act, which facilitates increased opportunities for work-based learning and internships for high school students and teachers, as well as mentorships for the business community in public schools. Creates structures to encourage greater connections between businesses, schools, and institutions of higher education. **Companion Bill: HB 2170**

SB 6202 - Authorizing the Establishment of Charter Schools - Introduced by Senator Rodney Tom - Referred to Senate Early Learning & K-12 Education - Authorizes charter schools and establishes the Washington Charter School Commission as an independent state agency whose mission is to authorize high quality charter schools throughout the state, particularly schools designed to expand opportunities for educationally disadvantaged students. Also establishes the transformation zone district as a statewide school district within the state. **(Companion Bill: HB 2428)**

SB 6323 - Reducing Certain Requirements Affecting School Districts - Introduced by Senator Steve Hobbs - Referred to Senate Early Learning & K-12 Education - Changes high school graduation requirements relating to a student completing a culminating project. Changes the requirements for submission, by a participating school district, of the school district program plan. Requires the state auditor to conduct fiscal and performance audits for school districts under certain circumstances. **(Companion Bill: HB 2538)**

HB 2155 - Creating the Joint Center for Aerospace Technology Innovation - Introduced by Representative Phyllis Kenney - Referred to House Higher Education - Creates the Joint Center for Aerospace Technology Innovation to advance research on new technologies that offer the promise of creating innovative products that can be used in aerospace. The Center is to work through engineering departments at the University of Washington, Washington State University, and other institutions working with industry-focused research. This act creates a governing board and staffing guidelines. The Center is to be funded with federal money, in addition to private gifts and grants. **Companion Bill: SB 5982**

HB 2156 - Regarding Coordination and Evaluation of Workforce Training for Aerospace and Materials Manufacturing - Introduced by Representative Phyllis Kenney - House Labor & Workforce Development Executive Action - Adds additional objectives for the Center of Excellence for Aerospace and Advanced Materials Manufacturing, including increased coordination with industry leaders and community and technical colleges. **Companion Bill: SB 5976**

HB 2171 - Regarding Agency Planning Processes - Introduced by Representative Tami Green - House State Government & Tribal Affairs Executive Action - Creates new goals for certain state agencies in their planning processes. Primarily, the agencies are to focus on increasing the number of households in the middle-income bracket which is defined as those family incomes between 200% and 500% of the 2010 federal poverty level, as determined by the United States Department of Health and Human Services for a family of four, adjusted annually for inflation.

HB 2184 - Making Adjustments to the School Construction Assistance Formula - Introduced by Representative Hans Dunshee - Passed House Capital Budget to Rules - Modifies calculations to the school construction assistance formula. This act requires that funds allotted to a school district be based on the student headcount for that district, less the number of students residing outside the district who are enrolled in alternative learning programs. This act requires that each kindergarten student be counted as a single, full-time student. This act takes effect immediately. **Companion Bill: SB 6002**

HB 2189 - Modifying the Rate of Vacation Leave Accrual for State Employees Formerly Employed by a School District - Introduced by Representative Sam Hunt - Referred to House Ways & Means - Modifies current law regarding vacation leave accrual for state employees formerly employed by a school district. This act provides that rates of vacation leave accrual are based upon total state employment, including each service year of qualifying service with a school district. This act takes effect July 1, 2012.

HB 2199 - Changing Compulsory School Attendance Requirements for Children Six and Seven Years of Age - Introduced by Representative Troy Kelley - Referred to House Education - Lowers the age of full-time, compulsory education from eight to six years of age, but limits truancy actions to children eight years and older. This act also modifies home-schooling reporting requirements to apply only to children eight years and older.

HB 2209 - Addressing Issues of Accountability and Funding for Alternative Learning Experience Programs - Introduced by Representative Kathy Haigh - Referred to House Education - Modifies requirements in current law regarding alternative learning experience programs to more closely align them with public high school graduation requirements and public university admissions requirements for students in grades 9-12. This act sets out specific course requirements for students in K-8 alternative learning programs. This act clarifies that part-time students in alternative learning programs are no longer exempt from state-wide assessment testing and participation in the testing will be based on a student's completion of course material to be tested. This act also distinguishes between alternative learning experience programs and contract-based learning programs for funding purposes during the 2012-2013 school year.
