Legislative Session Week 7 March 1, 2013

Friday, March 1 is the cutoff for any bill with funding attached to get out of their respective fiscal committee, unless it is required for implementation of the budget. This week has been fast and furious with a great happening both on and off the hill. Many of you joined us for our annual Legislative CTE Showcase (formally known as the Legislative Policy Seminar/LPS) where we had some amazing displays by various schools and our State CTSOs. There was a great amount of work done during the day with teams of CTE educators and students “storming the hill” making office visits. One group was even able to meet and get a picture with Governor Inslee. That evening we had a record number of legislators or staff members attend the Showcase with a total of 13. Some legislative districts had all three of their members attend.

HB 1656 died in committee last Friday. It was pulled in a discretionary move not to force a negative vote in committee conversations that were around trying to have a floor amendment to attach the bill to HB 1650. The prime sponsor was agreeable. As things progress and are negotiated among leadership and members this may or may not happen. We try to stay connected to the process, but much of this takes place “behind the ropes” among members.

SHB 1650 was passed out of committee and is now in Appropriations. The Substitute House Bill has greatly reduced the policy that drives the need for funding in this bill. The reduced fiscal note should help in getting it out of Appropriations, but please contact any [Appropriations Committee](#) members and ask them to support its passage to the floor. (Remember...please do it with your own resources (cell phone/computer) on your own time early this coming week.)

SHB 1692 was passed out of committee and is now in Appropriations. The Washington ACTE is in support of this bill and the funding it will bring to schools. BUT, this week many people have been down here with the Washington ACTE Legislative CTE Showcase and working the hill sharing our concern that section 7(2)(d) in SHB 1692 will limit the ability for students to access CTE programs offered both at the local high schools and skills centers. It is important to understand that the SBE’s graduation proposal is the only part of this section that we do not want to happen.

Finally, the Washington State Supreme Court ruled Initiative 1053—the two-thirds majority vote initiative—unconstitutional. Rather than a simple majority, Tim Eyman’s I-1053 requires a supermajority two-thirds vote from legislators to raise revenues or close tax loopholes.

Under the McCleary ruling in early 2012, the state must provide a significant down payment in addition to meeting the budget shortfall for this biennium to fulfill its duty in amply funding public education. The I-1053 ruling will provide the legislature a greater ability to meet its financial obligation to McCleary, so all students in Washington State have an opportunity to succeed.

It is also important to remember that the next Economic Forecast for the state is due out March 20, so we will not likely hear anything about budgets before then. This year the Senate traditionally takes the lead in making their budget public first. We will keep you posted.
