[Students learn real-world math of manufacturing](#)

Students enrolled in the algebra, manufacturing, process, entrepreneurship and design - or AMPED -- class at one Washington high school spent the year running a T-shirt printing business to learn how math applies to manufacturing jobs. The students made a \$500 profit that will be used for future classes.

We are pleased to announce that **Dan Tedor** has joined Learning and Teaching in Career and Technical Education as the **STEM Program Supervisor**. Dan joins us from a teaching position at Colorado State University, and is a former CTE Agricultural Sciences educator from Rochester and Federal Way school districts. Dan is a prior recipient of new teacher of the year from Washington Association of Career and Technical Educators, and is excited to join our team to grow and promote STEM education in our state. Dan is assuming all duties of STEM program supervision as of June 18. Dan can be reached via email at dan.tedor@k12.wa.us, and by telephone at (360) 725-4467.

Additionally, our Skilled and Technical Position is open. Information related to this position, and other employment opportunities within OSPI can be found here: <http://www.k12.wa.us/employment/default.aspx>

Jonathan Jackson has moved on to pursue additional professional opportunities. We wish him the best, and are excited to recruit in a strong candidate to lead our effort with Perkins, Grants, and Innovative Programs. We expect this position to be posted within the next week, and plan to move quickly to replace both critical positions.

If you have any questions, please let me know.

Thank you,

Rebecca Wallace
