

REPORT TO THE WA-ACTE EXECUTIVE BOARD

WACTA

Submitted By: Margaret Rice

Date Submitted: May 18, 2024

1. Accomplishments Since the Last Report (please identify the strategic plan goal/objective each activity seeks to achieve):

Building content for our members on our new website, though we may be looking for a new website host. Currently, we are adding backend folders owned by WACTA Webmaster to ensure information is kept within the organization and not lost when new leaders take positions. There will be an all day Professional Development for our Communications Committee on Sunday at Summer Conference to do some of this work.

Actively planning for our Fall Conference at Ilani.

2. Emerging Critical Issues/Concerns for WA-ACTE and/or Your Section (for information purposes only):

Actively working on the Fall 2024 and Spring 2025 Conferences. We are also working on developing a job description for a support staff position for WACTA.

3. Emerging Critical Issues/Concerns for the Field of Career and Technical Education (for information purposes only):

The Educational Budget crisis continues to be a concern with a major part of that issue being direct charges that are depleting CTE enhanced funding. Seeing more districts combining the CTE Director roles with other district admin roles. We will know more of the impact after this school year ends.

4. Other Comments/Suggestions:

5. Upcoming Meetings or Conferences:

Next board meeting will be on Saturday, August 3 from 1:00-3:00 PM in Spokane and the Business meeting right after from 3:30-4:30 PM.

Items Requested to Be Placed on Board Agenda for Discussion

(Only include items that require Board discussion or action. These will be placed on the Board meeting agenda at the discretion of the President.
